**PRO-LIFE REPORT:** National Right to Life has released The State of Abortion in the United States, 2024. The eleventh annual edition summarizes key legislative developments on the state and federal level in the first year following

the U.S. Supreme Court decision in Dobbs v. Jackson Women's Health Organization, which overturned Roe v. Wade. The report notes that the annual number of abortions was on the increase in the years leading up to Dobbs. However, more recent numbers appear to show that as many as 89,000 preborn children have been saved since Dobbs due to new protective state laws. The report is available from the National Right to Life Communications Department here: <https://www.nrlc.org/wp-content/uploads/StateofAbortion2024.pdf>
